Lucy Pet Foundation

Attention: Joey Herrick  
Dr. Karen Halligan

August 31, 2017

Dear Mr. Herrick and Dr. Halligan,

Thank you so much for offering to help the SPCA of Brazoria County as we work to rescue all the pets in our community impacted by the Hurricane Harvey disaster. As you are aware, our area was on the “dirty” side of the storm and our community is experiencing flooding like it has never had before. As a result, we are caring for over 1000 animals impacted by the storm, and more continue to arrive daily. The Brazos River and the San Bernard River are continuing to rise, and our community is still at risk of continued flooding and evacuations. We have never experienced a crisis of this magnitude.

I am writing to request your help in saving the pets impacted by this storm. We get new pets in daily, and they will all need vaccinations and other veterinary care before they can return home or find new homes.

We appreciate you and Lucy Pet Products/Lucy Pet Foundation for all that you do for animals, especially our pets here in Brazoria County.

Sincerely,

Stacey Allen Suazo  
Executive Director  
SPCA of Brazoria County
